

Project: Unit 31

Recce by: Alfie Skinner

Location:	Backwell Rec	Contact Email:	
Consideration	Details		
Local conditions	<p>School Nearby- Children pass through occasionally.</p> <p>Dog walkers- Dog walkers walk through the field often</p> <p>Depending on the weather, the ground may be wet/damp causing it to be slippery underfoot.</p>		
Permissions and security	<p>It is a public park, so I am able to take pictures at any time.</p> <p>I have asked my model to sign a model release form which gives me permission to take and use pictures of them in my project.</p> <p>I was aware that the area was open to the public and I was not trespassing when shooting</p>		
Viewpoints, obstructions, ease of reach and safety	<p>Floor may be damp, so I must be careful not to slip. If me or my model slipped on wet ground, there were members of the public in the area who could be able to help. There are also shops down the road who have first aid boxes. If it was a serious injury, there is also a doctor close by that would know how to treat the injury.</p>		
Power, lighting and sound	<p>Lighting depends on the weather conditions on the day of the shoot. I will not be using any lighting or sound equipment which means that I will only need batteries to power the camera and a spare battery pack in case that one runs out. I would also need to choose carefully the times of day that I go out to shoot as I would need the best lighting possible.</p>		
Set dressings and props	<p>Only a skateboard needed supplied by the model. The model would only need to wear their own clothes which they feel comfortable skateboarding. There would also be no alterations to the surrounding area as the scenery worked with the shot.</p>		
Anticipated problems	<p>If it rains or the floor is too wet, the shoot may be needed to be postponed.</p> <p>If the floor is damp, there may be a risk of slipping so I will have my phone with me if I need to call emergency services.</p> <p>If the batteries fail, then I would have a spare battery pack which I would be able to use to keep shooting.</p> <p>I contacted my model before the shoot to ensure that he was able to make the shoot. If he was unable to then I would postpone the shoot to another day.</p>		
Welfare	<p>Transport- I will catch a bus to my shooting location. I will plan my journey before the shoot so that I know that I can make it to the shooting location in time.</p> <p>Food- Food can be bought at Backwell Grill House which meant that me and the model did not become hungry and lose energy. There are post offices and a supermarket which sell drink which meant that we did not get dehydrated. I will have my phone with me to call emergency services and there are shops by Backwell Rec and a doctors surgery</p>
